Engineering Scholarships

From The Govt of Bombay in Bombay

No 9856/687 Dated 11/4/1911 Received 15/4/11

Diary No 6763 | Enclos 3 | Spare Copies | Serial No 5

BRIEF ABSTRACT OF LETTER

Recommends under the circumstances stated that one of the three Engineering Scholarships awarded every year may be made tenable in the College of Science, Poona.

NOTES AND ORDERS

Till 1894-95 the State Engineering Scholarships were tenable in the Engineering Colleges at Madras & Poona. From that year the Scholarships were made tenable only at Madras as the Poona College

NOTES—First sheet

GIB—15 000—24 4 09

PT

did not provide for a practical course. (Vide Govt Madras's Do Lr 6/11/1902) The Chief Engineer now recommends that half the number Engineering Scholarships may be made tenable in the Poona College as improvements have been recently made in the course of studies in that college. He does suggest that one of those Scholarships may be made tenable at Poona - Perhaps the Scholarships may be made tenable at Madras & Poona, ~~each year~~ Selections being made each year by Govt after examining the applications for Scholarships

of making the scholarships tenable at Poona or Madras at the option of the Student So far as general educational qualifications are concerned we may lay down, [irrespective of the Standard for admission at Poona,] that candidates for scholarships should, [except in very exceptional circumstances] be graduates in Arts who have passed with Mathematics or Physics as their optional subject.

2023 (2nd Cr + Dewan) 1883 / 264/4

4 I am inclined to think that it would be better to leave the qualification for admission to the Colleges concerned as sufficient. Only we may give preference to graduates. We may either make our scholarships tenable at Poona or adopt the Secretary's suggestion.

15 CSM
I ~~have~~ think that it is 13/5/11
not desirable to force candidates to unduly prolong their general College Course, as this is being made more & more severe That is why I should prefer one leaving eligibility for Schp to be decided by the eligibility for admn into the College

NOTE—Contn sheet

*From*

~~J WEIR Esq M A~~

*Inspector General of Education in Mysore*

*To* C S Balasundaram Iyer, Esq , B A ,
Offg Secretary to the Government of H H the Maharaja
of Mysore, General and Revenue Departments, Bangalore

SIR

I have the honour to inform you t at the Chief Engineer to the Government of Mysore recommends that l alf the number of Engineering scholarships given by the state every year may be made tenable in t e College of Science, Poona He bases this recommendation upon his personal knowledge of the improvements recently effected in respect of the Engineering course at Poona and on a previous admission of this improvement by Mr Bhabha, retired Inspector General of Education in his letter No 2071/23 dated 31st August 1908 addressed to the Chief Engineer, copy of which is here in enclosed Both of them lay stress on the similarity of climate between Mysore as a whole and Poona Mr Bhabha thought that notwithstanding the improvements made in the Engineering course at Poona, the Madras course was more practical and better as it demanded higher general qualifications as a necessary preliminary All the same he recommended that one out of the three annual scholarships may be made tenable at Poona

2 All the scholarships practically were tenable at Poona before 1892, but since then they were tenable either at Poona or Madras at the option of the student These were made exclusively tenable at Madras soon after and the value of the scholarship was raised from Rs 25/- to Rs 30/- per month The Madras course is considered very much the harder of the two, although the course at

Poona

Poona has recently been throughly revised

3 It seems, however, a hardship to decline to help a promising student if he should elect to go to Poona rather than to Madras In these circumstances I recommend that one of the scholarships may be made tenable at Poona as was recommended by Mr Bhabha

4. The Chief Engineer's letter with its enclosure is forwarded herewith for information and obliging return

I have the honour to be,

Sir,

Your most obedient servant,

S Krishnaswamy Aiyangar

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

*No* 2071/23 *Bangalore* 31st August *1908*

*From*

H J BHABHA Esq M A

*Inspector General of Education in Mysore*

*To* The Chief Engineer of Mysore,

Bangalore

SIR

With reference to your letter No 5455 dated 14th August 1908, I have the honour to inform you that from 1884 to 1896 all Mysoreans holding Engineering scholarship from the State were regularly sent for training to the Poona College of Engineering Since 1897 they have been sent to the Madras College of Engineering I believe the Mysore students who were trained in Poona before 1897 have given great satisfaction and risen to very high positions both in the Mysore and Bombay Departments of Public Works The preference given to the Madras Engineering College since 1897 is chiefly due to the fact that the Madras College prescribes a year's practical work in workshops for Mechanical Engineers and on Engineering works for Civil Engineers on the expiration of a course of three years spent in College Since 1897 however the course of instruction though limited to three years has undergone great improvement in the Poona College, whose designation has been altered to Poona College of Science, and has been made practical throughout, while the staff of the College has been greatly strengthened The standard of admission to the Poona College of Science is much lower than that of the Madras College, being

only

GPB-150-3-09

only the Previous Examination of the Bombay University which is held only one year after the Matriculation Examination According to recent changes the Madras Engineering College admits only B A's who have passed in Mathematics or Physical Science. Altogether the Madras course seems to be more practical than that of Poona In view of the fact however that the climate of Poona is similar to that of the Mysore plateau and suits Mysoreans better than the climate of Madras, I would allow not more than one Mysorean scholarship holder to join the Poona College of Science if he so desires.

I have the Honour to be,

Sir,

Your most obedient servant,

(Sd) H J Bhabha,

Inspector General
